

Senior Salesforce Developer - Job Description

Overview

Veltique Software is seeking an experienced Senior Salesforce Developer to build and optimize enterprise Salesforce solutions.

Job Details

Position: Senior Salesforce Developer

Location: Ahmedabad

Employment Type: Full Time

Experience: 5+ Years

Key Responsibilities

- Develop and maintain Salesforce applications.
- Build Apex Classes, Triggers, LWC, and Flows.
- Design and implement integrations.
- Perform code reviews.
- Troubleshoot technical issues.
- Mentor junior developers.

Required Skills

- Strong experience with Apex, LWC, SOQL, and SOSL.
- Expertise in Salesforce customization and automation.
- Experience with REST and SOAP API integrations.
- Knowledge of Salesforce security and sharing models.
- Strong debugging and problem-solving skills.

Educational Qualifications

- Bachelor's Degree in Computer Science, Information Technology, Computer Engineering, or a related field.
- Master's Degree (MCA/M.Tech) is an added advantage.
- Strong understanding of software development principles and cloud technologies.

What We Offer

- Flexible work environment.
- Opportunity to work on enterprise-level Salesforce projects.
- Continuous learning and professional development opportunities.
- Exposure to modern Salesforce technologies and solutions.
- Career growth within a senior-led consulting organization.
- Collaborative and innovation-driven work culture.
